PRINTED MATS

The logo on the entrance mat is the ideal combination of a quality entrance mat, with the promotion of a company's image with its logo or strong branding message.

High-quality multi-functional dust control mats provide the ability to clean shoes to prevent dirt and moisture from being transferred into your space.

They also provide an excellent opportunity to project the professionalism of a company or store and promote a brand or brand, due to the fact that most people primarily look at the floor first.

ELYSIUM

Personalized carpet-type mat with anti-slip rubber and the ability to print 130 different colors

Ideal for indoor spaces

The quality and durability of the Elysium carpet, combined with your own personal design or message and the range of **130 different colors**, can guarantee a visually striking entrance.

USE

- Indoor use
- Not suitable for areas with direct sunlight
- Capable of holding a large amount of dust and moisture

SPECIFICATIONS

- High Quality Polyamide Carpet
- High-strength nylon yarn fibers
- Available with or without logo
- Possibility of manufacturing special dimensions
- Possibility of installing black plastic perimeter trim.
- Option without trim for excellent application in recesses.
- Thickness 5.5-6mm. Also available with a thickness of 8mm upon request.
- Anti-slip
- Has a PVC backing

TECHNICAL SPECIFICATIONS

- Absorbs up to 4 liters of water per square meter
- Absorbs up to 4 kilograms of dust per square meter

**2 YEARS
WARRANTY**

DISINFECTANT MATS

Shoe disinfection solutions for areas where disinfection and germ removal is necessary.

DESMAT-PRO

Disinfectant mats for entrances where disinfection is essential.

Two-stage or single-stage disinfection zone for professional and domestic spaces.

USE

- Indoor use

SPECIFICATIONS & BENEFITS

The mat is soaked with a special disinfectant solution to disinfect footwear upon entry in high-traffic areas or where antibacterial protection is required.

CLEANING

- Rinse with clean water
- Cleaning frequency: as needed

INSTRUCTIONS FOR USE

- Place the mats in the designated slots and slowly pour 700 ml of a 1/10 disinfectant solution onto the first mat until it is evenly absorbed.
- For proper disinfection, shoes must step on the first mat and dry on the second mat.
- At the end of the day, remove the mats from the slots and rinse with water and detergent.

FIELDS OF APPLICATION

Recommended for spaces like food industries, bakeries, clinics, medical institutions, pharmaceutical companies, pharmacies, restaurants, kitchens, industrial facilities, offices, retail stores, and anywhere footwear disinfection is necessary upon entry.

CAUTION

Disinfectant without sodium hypochlorite is recommended.

It is important to note that the DESMAT-PRO mat, by itself, does not have disinfecting properties.

It works only when used with Anti-Bact disinfectant or another disinfectant of your choice that does not contain sodium hypochlorite.

WHAT'S INCLUDED

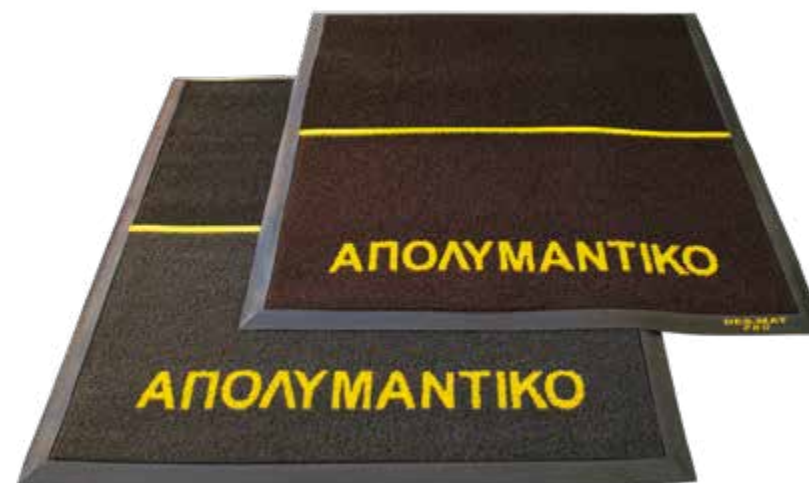

The Disinfectant DESMAT-PRO set includes a stainless-steel base with one or two positions, into which the Azure 9mm vinyl mesh mat and Demi Mat indoor mat (for the double base) are placed.

AZURE MAT

The Azure mat is a special perforated material with a large, flexible, open-structured vinyl mesh. It consists of a heavy-duty, flexible PVC base sheet. It fits in the first inner slot of the base, is non-slip, highly durable, and easy to rinse.

DEMI MAT

The Demi Mat indoor-use mat is made with a dual-fibre weaving technology to combine dust and moisture retention. It is highly durable, non-slip, and fits in the second inner slot of the base.

INOX

Disinfectant mats

Ideal for entrances where disinfection and the removal of germs are essential.

USE

- Indoor spaces
- Covered outdoor spaces

SPECIFICATIONS

- Uses Avalon 15mm carpet quality
- Easy carpet replacement in case of wear
- Can be combined with carpet-type mats to retain liquids
- Custom logo printing option available

CLEANING

- Rinse with clean water
- Cleaning frequency: as needed
- Easily removed from the stainless-steel tray for cleaning and reinstalled

MAINTENANCE INSTRUCTIONS

- ✓ Place the mat in the INOX tray.
- ✓ To disinfect shoe soles, apply disinfectant liquid to the mat. At the end of the day, remove the mat from the tray and rinse it with clean water.

APPLICATION FIELDS

Recommended for spaces such as food industries, bakeries, clinics, medical institutions, pharmaceutical companies, pharmacies, restaurants, kitchens, industrial facilities, offices, commercial stores, and any space requiring thorough disinfection of footwear upon entry.

! CAUTION

It is recommended to use disinfectant without sodium hypochlorite.
